COMPANY OVERVIEW

公司概况

Elite is a hospitality-focused production house specializing in premium hotel bed and bath linen for hotels, serviced apartments, and other hospitality projects. Rather than operating as a traditional supplier, Elite functions as a centralized production partner. We work through a carefully selected network of specialized manufacturing units each dedicated to specific product categories such as hotel bed linen, duvets and pillows, and towels and bath linen. Elite Hospitality integrates and manages this network as one coordinated production system to ensure consistency, efficiency, and project reliability.

Our core focus is the engineered production of hotel bed and bath linen, including sheets, duvet covers, pillowcases, duvets, pillows, mattress protectors, towels, bathrobes, and slippers. All products are developed to withstand intensive hotel laundering cycles while maintaining comfort, durability, and a consistent guest experience. Upon request, we also develop and produce additional hospitality textile items aligned with your room and bathroom standards.

We partner with hotels, serviced apartments, and hospitality procurement teams that require dependable, specification-driven manufacturing without the burden of managing multiple factories. Elite Hospitality's role is to study your property and brand positioning, convert your requirements into precise production specifications, and control the full production workflow from sampling and material approval to manufacturing oversight, quality checkpoints, and shipment readiness.

BED ROOM

PILLOWS AND SQUARE PILLOWS

A fluffy bed, full of pillows and square pillows, is a trend that is now seen at hotels all across the world. These elements create a cozy and different setting, so that the guest can be comfortable and feel right at home. Pillows play an essential role to create this feeling. In addition to the comfort they provide, they are combined with decorative cushions in the same color as the elements of the hotel room to contrast with the white of the sheets. There are establishments that can layer up to 10 or 12 pillows on the bed. To distribute them in a careful and coordinated way, pillows, square pillows and decorative cushions are arranged in pairs, according to their shapes and, usually, from the biggest to the smallest ones, although there can be size variations in the middle of the composition.

一个蓬松的床铺，配有各种枕头和方形枕头，是目前全球酒店的流行趋势。这些元素营造出温馨而独特的环境，让客人感到舒适，如同置身家中。枕头在创造这种感受中起着至关重要的作用。除了提供舒适感，它们通常还会与装饰性靠垫搭配，靠垫的颜色与酒店房间的其他元素相呼应，以突出白色床单的对比效果。有些酒店的床上会叠放多达 10 到 12 个枕头。为了将它们整齐且协调地排列，枕头、方形枕头和装饰性靠垫通常成对摆放，按照形状排列，一般从最大到最小，当然在组合的中间部分也可能存在尺寸变化。

PILLOW MENU

When someone goes to bed, they use the pillow that suits them best to get a good sleep, since, based on their sleeping position, they must use the pillow most adapted to their needs. Pillows are linked to health at night, so hotels offer menus with different pillow types for every kind of person. To **sleep on your stomach**, the best choice is a soft and low pillow. To **sleep on your back** or **if you change your sleeping position repeatedly**, you must choose a pillow of medium height and medium firmness. To **sleep on your side**, you will need a thick and firm enough pillow. For people with **neck injuries**, it is best to go for a special pillow that conforms to the neck.

这里是你的文本的中文翻译：

当人们上床睡觉时，会选择最适合自己的枕头以获得良好的睡眠，因为根据他们的睡姿，需要使用最符合自己需求的枕头。枕头与夜间健康密切相关，因此酒店会提供不同类型的枕头菜单，以满足各种客人的需求。俯睡时，最好的选择是柔软且低矮的枕头；仰睡或经常变换睡姿的人，应选择高度适中、硬度适中的枕头；侧睡的人则需要厚实且足够坚硬的枕头。对于颈部受伤的人，最好选择能够贴合颈部的专用枕头。

They ensure softness and comfort thanks to their special filling. These pillows allow a gentle rest. They are not very firm, therefore they are appropriate for those who sleep on their stomach.

这些枕头因其特殊填充物而保证柔软与舒适。它们提供轻柔的休息感。由于不太坚硬，因此适合俯睡的人使用。

REF. POLYFIBER BASIC

Exterior fabric:100% cotton. **Filling:** 100% polyester, siliconised and carded hollow fibre.

REF. ECOLÓGICA

Exterior fabric:100%cotton downproof. **Filling:** 50% down, 50% small duck feathers.

REF. ECOLÓGICA ESPECIAL

Exterior fabric:100%cotton downproof. **Filling:** 70% down, 30% small duckfeathers.

REF. SUPERPLUM

Exterior fabric: 100%cotton downproof.
Filling: External camera 90% down 10% small duck feathers and interior camera 15% down 85 % small duck feathers.

REF. OCA

Exterior fabric: 100% cotton downproof. **Filling:** 30% small goose feathers 70% down or 70% small goose feathers 30% down or 20% small goose feathers 80% down or 80% small goose feathers 20% down.

MEDIUM QUALITY

Filled with hollow fibre, they are breathable and cool. Firmer and thicker than feather pillows, they are appropriate for people who sleep on their back or change their sleeping position repeatedly, since they have a high recovery capacity to bounce back to their shape immediately.

填充空心纤维，透气且清爽。比羽绒枕更坚实厚实，适合仰睡或经常变换睡姿的人使用，因为它们具有高回弹力，可立即恢复原有形状。

REF. TACTO

Exterior fabric:100% polypropylene. **Filling:** 100% polyester, siliconised and carded hollow fibre.

REF. SWEET RELAX

Exterior fabric:100%cotton. **Filling:** 100% polyester, siliconised and carded hollow fibre.

REF. UNIVERSAL MEDIA

Exterior fabric:100%polyester microfibre. **Filling:** 100% polyester, siliconised and carded hollow fibre.

REF. POLYFIBER

Exterior fabric:100% cotton.
Filling: 100% polyester, siliconised and carded hollow fibre.

REF. MIX POLYFIBER-HIBRISON

Exterior fabric:100% cotton downproof. **Filling:** 100% polyester fibre balls.

NATURAL-MEDIUM QUALITY

Pillows that combine the high recovery capacity of fiber with the natural components of the feathers and down which allow a gentle rest. As they are combined with fibre, they are firmer and thicker than pillows which contain feathers and down only, so they are ideal for people who sleep on their back or change their sleeping position repeatedly.

这种枕头将纤维的高回弹性与羽毛和羽绒的天然成分结合，提供轻柔的休息感。由于加入了纤维，它们比仅含羽毛和羽绒的枕头更坚实厚实，因此非常适合仰睡或经常变换睡姿的人使用。

REF. MICROPLUM

Exterior fabric:100%cotton downproof. **Filling:** 50% down (70% small feathers- 30% down) 50% microfibre.

REF. FIRMEPLUM BASIC

Exterior fabric:100% cotton downproof.
Filling: 60% down (20% down 80% small feathers) 40% polyester siliconized hollow fibre balls.

REF. FIRMEPLUM

Exterior fabric:100% cotton downproof. **Filling:** 60% down (60% down 40% small feathers) 40% polyester siliconized hollow fibre balls.

REF. TEMPLUM BASIC

Exterior fabric:100%cotton downproof.
Filling: 60% small feathers (20% down 80% small feathers) 40% Tencel (75% Lyocel 25% polyester)

REF. TEMPLUM

Exterior fabric:100% cotton downproof.
Filling: 60% down (60% down 40% small feathers) 40% Tencel (75% Lyocel 25% polyester)

MEDIUM-HARD QUALITY

With high capacity of recovery, they provide a pleasant comfort and rest. Filled with hollow fibre, they are breathable and cool. They are appropriate for people who need to sleep on their side. They are firm, but not too hard, so they have a high recovery capacity to bounce back to their shape immediately.

中硬度品质

具有高回弹力，提供舒适的支撑和休息感。填充空心纤维，透气且清爽。适合需要侧睡的人群。坚实但不过硬，具备高回弹能力，可立即恢复原有形状。

REF. HIBRISON CLASSIC

Exterior fabric: 100% cotton downproof. **Filling:** 100% polyester, siliconised and conjugated hollow fibre.

REF. HIBRISON BALL

Exterior fabric: 100% cotton downproof. **Filling:** 100% polyester siliconised and conjugated fibre balls.

Exterior fabric: 100% cotton with sanitized treatment.

Filling: 100% polyester fibre Comforel –eco Drancon (hypoallergenic polyester)

REF. DANUBIO

HARD QUALITY

Compact pillows filled with a block of latex for people who like to sleep with a high and firm support. They don't get deformed after the pressure of the head and the neck. They totally conform to the shape of the body, providing it a restful sleep. They are also ideal for people with allergies.

紧致枕头

填充乳胶块，适合喜欢高且坚实支撑的人使用。承受头部和颈部压力后不易变形，完全贴合身体形状，提供安稳的睡眠。同时也非常适合过敏体质的人使用。

REF. ANATÓMICA

Exterior fabric: Double case: Exterior 100% cotton - interior 70% cotton 30% polyester (knit) **Filling:** 100% latex.

MATTRESS PROTECTORS

The memory that remains etched after staying at a hotel is closely linked to rest. **Guests want to feel at home**, not only for the atmosphere created by the elements composing the room, but also for the comfort that the bed provides. The experience can be terrible if you have a bad sleep due to a noisy or too warm mattress protector. In the latter case, many guests end up taking it off, which can result in damages to the mattress. **The new sleeping concept** which customers demand has made Resuinsa research on the products they are developing to meet these needs, as has been the case for the mattress protector so that it is not uncomfortable. Although it is an accessory that remains in the background because it is not visible, its function is key, as it preserves the mattress and promotes rest. Therefore, it is an essential element to provide customers a pleasant and comfortable hotel experience.

入住酒店后留在记忆中的体验，与休息密切相关。客人希望感受到宾至如归的舒适，不仅因为房间内各种元素营造的氛围，更因为床铺带来的舒适体验。如果因嘈杂或过热的床垫保护套而导致睡眠不佳，体验可能会大打折扣。在这种情况下，许多客人会将保护套取下，可能造成床垫损坏。

客户对全新睡眠体验的需求，促使 Resuinsa 对其产品进行研发，以满足这些需求，例如床垫保护套的设计，确保使用时舒适无负担。尽管这一配件通常不显眼，但其功能至关重要，它不仅保护床垫，还促进良好休息。因此，它是提供宾客愉快舒适酒店体验的必备元素。

SHEETS

We have a wide range of light, cool and highly durable sheets. A collection of percale (taffeta) sheets of 100% cotton and polyester cotton. Three collections of sateen sheets, a collection of plain fabrics with thread counts ranging from 250 to 1000 (in white and other colors), another collection of striped sheets (white color) and a final exclusive collection with different designs on the edge of the latest trends. They are all aimed at creating themed hotel rooms, always with an exclusive design, providing comfort and a beautiful look to the bed.

我们提供种类丰富、轻薄、清爽且高度耐用的床单。包括一系列府绸（塔夫绸）床单，材质为 100% 棉及棉涤混纺；三大系列缎面床单：一系列纯色面料，支数从 250 至 1000（白色及其他颜色），一系列条纹床单（白色），以及一系列独家设计床单，采用最新潮流的边缘花纹设计。所有床单均旨在打造主题酒店房间，提供独特设计、舒适体验以及美观的床铺外观。

DIFFERENT CONFECTIONS OF TABLE LINEN

2 hems of 5cm and straight piping

4 hems of 5cm and piping number 20

2 hems of 5cm and piping number 73

4 hems of 5cm and satin ribbon appliqué

4 hems of 5cm and piping number 18

4 hems of 5cm and double straight piping

2 hems of 5cm and bourdon piping

4 hems of 5cm and hemstitch

2 hems of 5cm and piping number 50

4 hems of 5cm and piping number 74

4 hems of 5cm and straight piping

2 hems of 5cm and piping number 71

CHAIR COVERS

REF. STRECH

Fabric: 100% Polyester.

Colour: White and wide range of colours.

Confection: Tailor-made.

参考：弹力面料

面料成分：100% 聚酯纤维

颜色：白色及多种颜色可选

制作方式：量身定制

TEXTILES SUITABLES FOR INDUSTRIAL LAUNDRY

Industrial laundering is a very aggressive process that damages a normal piece of clothing. The textile that undergoes this type of laundering must have an improved resistance while keeping its qualities through time, and being able to resist the harsh conditions of industrial laundering, which differs greatly from domestic wash. In the industrial laundering process there are many aggressive agents, such as the wash temperature, the use of detergents and chemicals, the drying temperature and the calendaring and pressing temperature. In order to guarantee the resistance of our products, Resuinsa has obtained a quality certificate in textile products suitable for industrial laundering, based on the norm UNE-EN ISO 15797:2004. In order to obtain this certification, the fabrics must be resistant to products such as detergents without optical whitening and water peroxide as a bleaching agent. Textile items must resist 75°C washing and several drying and pressing processes. The certificate grants quality criteria such as tensile strength, laminar mass, absorption capacity, degree of white and degree of polymerization (GDP).

工业洗涤是一个非常苛刻的过程，会损害普通衣物。经过这种类型洗涤的纺织品必须具备增强的耐久性，同时保持其长期品质，并能够抵抗工业洗涤的严酷条件，这与家庭洗涤有很大不同。在工业洗涤过程中，会涉及许多具有侵蚀性的因素，例如洗涤温度、洗涤剂 and 化学品的使用、干燥温度以及整烫和压制温度。

为了保证我们产品的耐久性，Resuinsa 已获得适用于工业洗涤的纺织产品质量认证，基于 UNE-EN ISO 15797:2004 标准。为了获得此认证，面料必须能够耐受无光增白剂洗涤剂和过氧化氢作为漂白剂的作用。纺织品必须能够承受 75°C 的洗涤温度以及多次干燥和压制过程。该认证授予质量标准，包括抗拉强度、层压质量、吸水能力、白度和聚合度 (GDP)。
