

The desk is available in a left and right version. It features an extension of the monolithic forms, combining emotional design and practicality. The furniture is not conceived as a fixed composition but as elements separate to each other and combinable. All elements composing the Jera® line are characterised by monolithic aspects and a volumetric weight, the inspiration behind the name of the series.

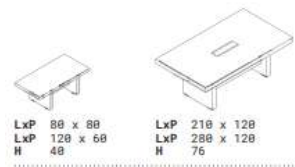

Wood and leather characterise the structural elements, creating a clear distinction from the working surfaces. An aesthetic and tactile effect, precious and sophisticated.

Executive desk entirely made of wood, with or without extension, characterised by neat and precise lines. A sequence of 35-mm panels the meet but do not touch one another. A thin vertical cut that strongly defines the sides.

Meeting tables in different formats that can be combined in a number of ways up to large compositions. The reduction of supporting elements and the slender legs add lightness and stability to each composition, allowing perfect use on all sides.

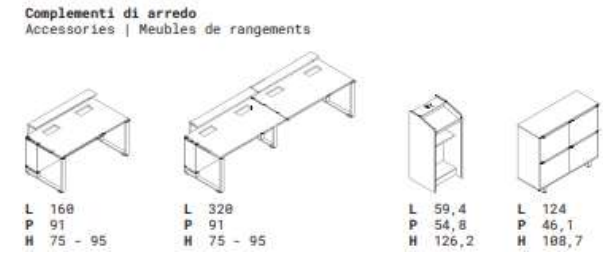

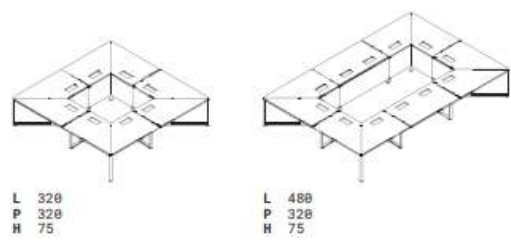

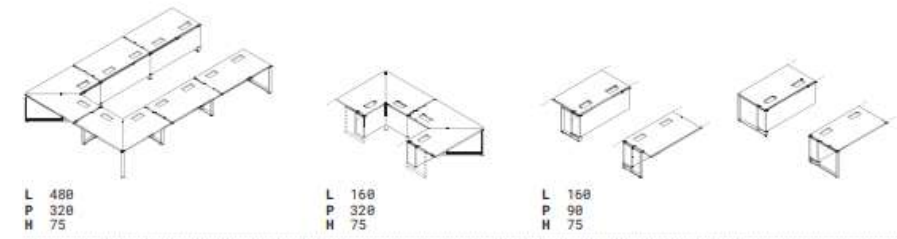

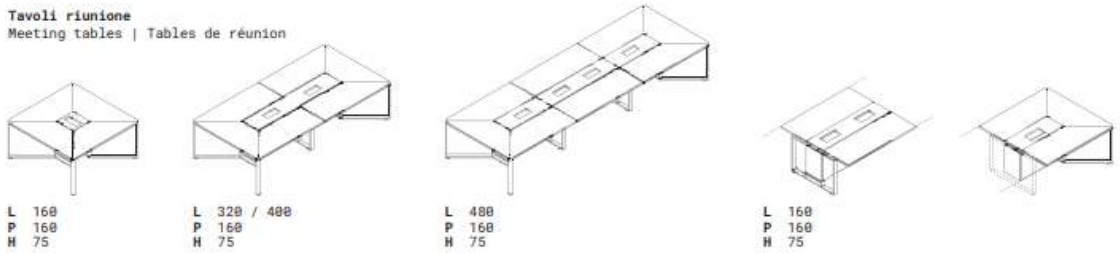

In large compositions, optimal wiring is available in all positions, thanks to linear top access openings and large Wire Managers for upward wiring.

Tavoli riunione
Meeting tables | Tables de réunion

Versatile desks for executive and operational offices and meeting rooms. The aluminium frame, the flush-mounted top and the rounded edges define a new style.

Storage is provided by rigorous and compact volumes that counterbalance the desks soft shapes. A formal dialogue that characterises the entire collection.
